Your request to obtain three estimates at this time is very difficult at best. Every farmer is having trouble keeping up with what they need to do. Perhaps you have a suggestion since this will be yet another year without water.

H (b)(6) privacy Rob just passed an email to me with your phone number as I have been having trouble contacting you. Below is a link to the most recent data. This is currently in a spreadsheet format with other wells. But as you have seen from prior sampling your well number is DW30.

If you have trouble viewing or printing this information let me know and I will send you a hard copy.

Also in your email to Rob you mentioned that the property regrading is still not right. I was unaware you were still having issues.

I would like to talk with you when you have time - at your convenience. You can call me at the number below during the day or on my personal cell phone anytime.
